To whom it may concern,

Re- Gain lane site Number HG2-63

The site proposal (site HG2-63) gain lane, 196 units, suggests a decent quantity of housing for the site, whilst maintaining a small footprint. The site is well contained, with good access , the allocation is ideal in all respects. It is good that this appropriate site is also in phase one. This will be good for local economics, and above all, supply new homes and play its part in addressing the housing crisis quickly.

Sound allocation as far as I can see.
This ticks all the right boxes.

Mr Cooper
