Subject: Site Plans Leeds 12

To whom it may concern

Following mixed messages from several parties I have been led to believe that you are the correct people to discuss the recent plans for the Leeds 12 area especially the permanent travellers site on the land next to the Bingo Hall on Tong Road.

The resident near this area received letters from the Green Party regarding this plan however after contacting the Leeds City Council Travellers Department we have been informed that there is such plans.

We have then seen the proposal which I believe is available at the Armley One Stop Centre. Should this not been sent to the residents for their comments.

Should there not be a public meeting to discuss these plans and to allow the resident their say on these plans

At no time has the local council informed any of the residents of this it has all been done via third parties or gossip or even social media.

So we ask can you confirm that plans for a travellers site off tong Road is going ahead and if the resident are entitled to voice their opinion
