---

To whom it may concern,

I would like to put forward my strong objection to the semi rural areas of yeardon/rawdon being developed.

Not only will this impact on the wildlife on the area our towns cannot take anymore housing, we do not have enough space now in the schools for the children in the area, our doctors/dentist are not taking any new patients due to being too full. New road is very congested and more cars on this road at rush hour and school runs would bring it to a standstill.

I understand the jobs this would bring when the homes are being built but I think that the negative effects after the homes are here far outway the benefits of them being built.

Kind regards  
Natalie O'Reardon
