Dear Sirs

Re site HG2-41

I am writing to object to to this Green Belt site being considered as a future housing location.

The site is green belt within your own core strategy as well as being designated 'Special Landscape' offering as it does a green corridor separating Horsforth from Rawdon. The land owners /developers who sought to include this land in the Site Allocation obviously thought that now the ex Clariant site (HG1-97 & HG1-96) is being developed for housing they should be able to continue the trend up the hillside.

The 2 sites are completely different as Clariant was an industrial brown field site & not Green belt.

Yours Faithfully

Paul M Shagouri
