RE: Plan ref HG3-5 Old Pool Bank, Pool in Wharfedale

This site has been safeguarded for possible future development after 2028. We think that this land should never come forward for development as the local infrastructure and services cannot support significant numbers of new houses. Building over 500 houses on this site would over-burden the local infrastructure and irrevocably change the nature of the village and surrounding area not to mention the disruption, noise and extra traffic that would be created during the construction phase.

Wendy and Elaine Jackson
