Having looked at your website viewing the various proposed developments it is quite obvious that it was written in a rush. The rationale for every site is cut and pasted. The rail line is not Leeds to Harrogate. Taken as a whole most of development is on greenfield so we will soon be attached to Baildon and menston. There is no holistic overview of traffic implications. It will clearly be an ever deepening traffic crisis for sure borough. I am against it.
Please acknowledge my objection
Richard
