Subject: PDE00160_RE_PLANNING FOR HOUSES ON RAWDON AND HORSFORTH GREEN BELT.
Date: 28 October 2015 20:30:03

Dear Sir or Madam,

It has come to my notice that Leeds Council wish to go against the Governments NPPF for conserving natural environment.

And Leeds Council Core Plan for green belt. Having lived in this area for 37 years I have got use to living with all this Green belt in this area,

With all this planning going on you aim to build a Urban Sprawl connecting Rawdon and Horsforth together, which is not good for the Wild Life

In these areas.

HG2-12 - There is only one access to this plot and that is along Southlands Avenue, as the other roads around this area are all private,

I have plenty of wild life in this area which will be lost forever if this silly plan goes ahead.

HG2-41 - This farmland is a colourful place in the with Fruit plants and vegetables growing here as well as the wild life that lives in the hedgerow,

It will be all lost if this crazy plan goes ahead, if you plan to go ahead with this, then get the builders to put in place the school before they build a

Single house, as they try and weasel out of these promises.

HG3-2 - Who in there right mind would like to live on the busiest main road North of Leeds and next to sheet metal firm, which are noisy at the best

Of time, we will lose all the habitat within this area.

HG3-3 - This is some ones private holding where they there Bee Hives and has a lot wild animals on it, I do not think that the people who put these

Plans together has ever been out to these sites to see the problems that this will cause.

HG3-4 - Ghyll Beck is a idyllic part of Rawdon,, as a Scout Leader we used this area for doing the nature badges, which you plan to destroy, and

Cause a flood plain lower down.

I know that we need more housing, but you should be using the brown field sites first and only build 2 and 3 bedroom house, not 4 or 5 bedrooms

As that only indicates that we are trying to increase the population of Leeds, also first time buyers do not cannot afford 4 and 5 bedroom houses

It would be nice if Leeds and Bradford Councils worked together on the building along the A65 which is now a car park in rush hour, because the

Road between the outer ring road and Kirkstall cannot cope with the traffic, It is also a know2n fact that Leeds does not need 70,000 house, but

45000 houses which they seem to not listen to people who know.

Thank you

Charles Ankin
