Date: 28 October 2015 12:54:45

I would like to object to the proposed Housing developments in the Rawdon area for the following reasons:

The plans have not been positively prepared.....as required by the previous inspector when he passed the core strategy as sound

The plans are not justified.....lots of people enjoy the countryside walks and recreational routes around the area. Wildlife will be lost for ever (deer, bats,owls).The ring road is completely gridlocked on a morning and evenings already! More houses are going to create huge problems for residents. Local schools are already over subscribed/

The development not effective.....Knott lane is a tiny lane and is already completely congested. Access issues onto A65 would remain.

Development not in accordance with NPPF.....exceptional circumstances have not been proven to outweigh the harm the redevelopment will cause.

I would appreciate your views re my concerns.

Helen.
