Importance: High

Please find below the details of the new enquiry submitted by the public user on the Leeds WebSite :

Name : Anne Simms

Source : <http://www.leeds.gov.uk/council/Pages/Neighbourhood-planning.aspx>

Message : I was advised that there are plans afoot to build approximately 750+ houses along the stretch of road from Horsforth Roundabout to Rawdon Cross Roads which I find an absolutely horrendous thought. I do not know if the farmers have sold the land to the builders or if the LA are going to purchase by means of compulsory purchase. I personally feel that the application should be opposed at all costs. The traffic on that stretch of road will become even more congested and the roundabout that has just been built will become even worse. I do not think it will cope with any increase in traffic. Not only that but we have a terrible bus service on that route to start with - that will only get worse by an increase in people being there. I do not think that the two new stations that have been built will cope with an increases in traffic and people. I just feel that the LA will be ruining our area if this is allowed to go ahead and oppose absolutely and totally any plans to build these houses.

Thanks
