To whom it may concern,

I would like to register my concern regarding the above plan.

My main concerns would be the loss of green belt in the area which currently provides a balanced environment to those residents currently in the area. There is a surprising amount of wildlife for this urban area which I imagine is supported by this green belt. It would be a tragedy for this to be destroyed. The area provides immense opportunity for those in the area seeking outdoor recreation and contributes to the wellbeing of residents and will attract future residents to the area due to the diversity and proximity of natural habitats.

My other main concern would be the added congestion to the roads specifically Queensway.

I sincerely hope that this planning application does not get passed.

Yours,

Jacqueline Botham
