RE: LEEDS SITE ALLOCATION PLANS - FORMAL OBJECTION

26 October 2015
Dear Sir / Madam,

As part of the Leeds Site Allocation Plan public consultation process, I would like to formally object to the proposed development of the following sites:

HG2-46
HG2-45
HG2-44
HG2-37
HG2-42
HG3-2
HG3-3
HG3-4
HG2-12
HG2-41

It is my understanding that the proposed development sites are NOT consistent with the national policy, specifically with regard to Green Belt. Leeds must continue to protect our Green Belt and greenfields.

The fields and open green spaces, which are being proposed for development, are important to me because they are areas that I frequently visit with my family and form a key part of my family life.

Can you confirm what consideration has been given to the wildlife in these areas.

These sites should continue to be part of Leeds' 'Strategic Green Infrastructure' as identified in the Adopted Core Strategy.

It is my understanding that the proposed development sites are NOT consistent with the national policy, specifically with regard to infrastructure. Leeds has insufficient policies in place to address the issues that these developments will generate. Development and infrastructure requirements must be considered side by side.

The Kirkstall Forge development will already have huge implications for increased traffic on the A65 and surrounding roads. We are all aware of the problems that currently exist on the roads around Horsforth due to the ever increasing traffic. I would also be interested to know what proposals are in place to solve the problems of access to local schools in the area.

Development of these sites on greenfields will lead to nearby villages being engulfed within the 'Main Urban Area' and they will no longer be separate 'Major Settlements' of their own.

Please keep me informed of the public examinations, submission of the plans and potential outcome of the review as I would like to retain my right to attend and speak.

Yours faithfully,

Andrew Lilley
