Dear Sir/Madam,

With reference to the proposed planning applications my objection is on the following grounds for years people living in the Horsforth area have enjoyed the natural green belts between Horsforth, Rawdon, & Yeadon to lose these would be criminal the last thing people want living in these towns is one vast urban sprawl of housing. The next point of my objection is the extra traffic that will be generated on the A65 even after the so called improvements to the Horsforth and Rodley roundabouts the traffic in the morning and evening rush hours is hideous I cannot believe that any right minded planner would even consider a scheme that brings even more pressure to bear on the A65 which is groaning at the amount of traffic using it at present. Finally I do understand that the government are committed to building more housing but surely NOT at the expense of degrading the environment and the quality of living for people that already live in the effected areas. So planners think again and do not ruin what is a green and pleasant area to live remember the green open areas between Horsrth, Rawdon and Yeadon should NEVER be developed !!! These natural breaks between our villages are priceless !!
