Dear Sirs,

I am lodging my objection to plan refHG2-3/1255B Coppicewood Crescent/Banksfield Mount as this is a green belt site. I am appalled that Leeds City Council would consider building on any green belt site where ever it is in the Leeds boundary. There are other brown belt sites in Aireborough much more suited to development if necessary, although this Aireborough is already struggling with the present infrastructure. Schools, doctors, dentists and other health services are at capacity. The traffic on Queensway would become heavier which is damaging to the environment.

Yours faithfully,

Sharron Broadhead
