Subject: proposed residential development Horsforth

Dear Sir/Madam,

I protest against the proposed development of Green Belt land HG2-41 and HG2-12 in Horsforth as part of the Site allocation consultation. This does not comply with the National Planning Policy paragraph 79. This is especially important with the proximity of Bradford which is also planning to expand. When I moved to a new house in West End Rise in 1960 ours was the most westerley road before the green belt. I would like it to stay that way Neil McDonald
