Message : My wife and I are appalled by the proposal to build houses on the edge of Temple Newsam Park at Colton. We see that you have a mission to create 'green spaces' so why would you allow building of houses on green belt land? They are obviously not going to be affordable houses constructed in this picturesque location and only the well-off will be able to buy these properties! What about building affordable housing on brownfield sites instead of this rural location that is a home for Wildlife, which is already being squeezed out by the creation of business parks i.e Thorpe Park and the accompanying roads and infrastructure that goes along with it. Not to mention the increased congestion on local roads.

Than! ks
