To whom it may concern,

I would like to voice my opposition to the proposal of building houses on the aforementioned greenbelt fields.

I moved to Yeadon 7 years ago and immediately fell in love with the charm of the area. I loved (and still love) the fact that there were green spaces for my children to enjoy. Over the past 7 years though, the number of green spaces has gradually dwindled, with housing developments being built on every available plot of land. I, like so many other local residents, do not want to see Yeadon urbanised. Not to mention the impact this development will have on traffic congestion, schools, doctors..... Traffic frequently queues along the A65 and local schools have very few places available. Is the council prepared to improve the infrastructure of our roads? Will they create more school and doctors places? If not, then this project should seriously be reconsidered.

I urge you to listen to local residents on this matter, otherwise the future of the area looks very bleak indeed.

Regards,

Sophie Sumpter.
