Sir/s

Re site references: HG3-4 HG3-2 HG3-3 HG2-12 HG2-41

These areas are in your opinion justifiable building sites but please can you explain why it is necessary to concrete over many of our valued green fields. It concerns me that visitors to our area have no idea when they leave for eg Kirkstall into Horsforth into Rawdon into Yeadon into Guiseley, as each village (and I use the term loosely as we have already lost our identity) run into each other as it is. I urge the council to listen to the residents of these areas and look for more brown field sites. The idea of making new roads will only add to the problem – what is wrong with a rail link ? Our children deserve more to life than concrete jungles. Yes – these areas are desirable but only because they are green and once brutalised will never return.

Yours very concerned
