- **I wish to formally complain about the Leeds City Council Planning core strategy, with particular regard to sites HG3-2 HG3-3 HG3-4 HG2-12. All in Green Belt land. The following are my objections to this plan.**
- **This plan is not fit for purpose**
- **There will be excessive and obtrusive noise pollution**
- **There is already heavy congestion on the A65, further building in this area will cause gridlock.**
- **Visual amenity will suffer badly with any additional building.**
- **Current utility services will not be able to cope with an additional; 700 homes. Electricity, water and sewage are already at near maximum capacity.**
- **This ill thought out plan is not legally compliant with government Green Belt Policy.**
- **Pollution levels already high will increase alarmingly with the increase in traffic.**
- **Schools in the area are almost at full capacity now. How can they manage with so many more residents?**
- **There will be wanton destruction of Government protected green belt land.**
- **(Cui bono?) Who benefits? Certainly not the local citizens and Council Tax Payers.**
- **This plan is contrary to the National Planning Policy Framework, protecting Green Belt Land and is therefore illegal.**

Brown belt land must be utilized first.

Please consign this ridiculous plan to the garbage bin where it belongs.
