Subject: PDE00335_Objections to loss of Green Belt in Horsforth area.
Date: 18 October 2015 21:22:49

Good Afternoon,

This is in relation to the following sites

HG2-41
HG2-42
HG2-43
HG2-12
HG3-2
HG3-3
HG3-4

There are several points that I would like to register my objection to these sites.

1. The proposal to include these development sites in the Local Plan is not consistent with the National Policy.
2. A single person, who moved to Horsforth several years ago, I was attracted by the character of the local area and easy access to green fields and open space. I regularly walk through some of the areas (HG2-41 ,HG2-42,HG2-43) to enjoy the peace and tranquillity of the countryside. This area is used regularly by local people including families with children, cyclists, joggers and walkers . Its a valuable resource for future generations to enjoy that the residents currently enjoy. To loose the Green Belt would be disastrous for future generations, its not exceptional circumstances that this Green Belt needs to be used. I have seen wild deer, owls, foxes to name but a few. To destroy this habitat would be disastrous.

Regards,

Paul Ewing
