To whom it may concern

I am emailing my objection to the plans to build 155 houses on the A65/Gill lane green belt fields. I do not feel these plans are justified or effective in any way, there has already been 2400 houses built without any improvements to the local community i.e no improvements to the roads, the A65 is already an extremely busy road and this will only make it worse, I understand a traffic survey was done but during a school holiday so it would not give a true representation of the volume of traffic there actually is on a normal working day. Why I ask ??

With 2 children attending schools in this area I am aware the schools are already at capacity so how can they accommodate more children/families without compromising the education of the existing children attending?

Other community resources like doctors and dentists are also already full? Has none of this been taken in to consideration?

With the ongoing building works in neighbouring councils like Bradford council has there been no communication or assessment to see its impact on both communities.

Sadly we would be losing a historic pasture land where the history of this town comes from! Not to mention all the wildlife we will lose. People chose to live in this area for all these reasons and they are been taken away without any justification or proper consultation. I feel there are better urban sites within Leeds that could be built on 1st. I urge Leeds city council to consider all these points.

I look forward to hearing from you

Yours sincerely

Sarah Hardy
