Subject: PDE00373_Sites in Horsforth for Building
Date: 13 October 2015 17:08:08

Good afternoon Cllr Blake. As a life long supporter of Labour and never had the luxury of having a Labour Cllr or M.P. I feel compelled to voice my objections to the many proposed sites in Horsforth designated for housing. It appears Horsforth might be taking well above its average share of sites. I urge you to consider the impact this is and will have on the residence of Horsforth. I am not saying there should not be any just have another look and think hard when all these plans go before the Council. I also believe what must be factored in is the proposed new road to the airport and the growing site of Trinity.

I have filled in the yourcity site to air my views which I did find slightly biased in its layout and questions, hence my direct email to you.

I have worked in Leeds challenging areas all my life so well versed with all the demands being made for school places and housing. Leeds must look to the future but not at the expense and well being of the past, present and current residence

Regards
Gerry O'Kane
