Subject: PDE00408_objection to houses on the green belt in Horsforth
Date: 05 October 2015 17:55:03

Dear Sirs

I am writing to strongly object to the proposed housing on the green belt land from the roundabout at Horsforth on the A65 to the crematorium. This green space provides a valuable change from the urbanisation that the council seems to be foisting on us. We need to keep what green belt we have left, these are the lungs of the city and promote health and well being.

The traffic on the A65 is already very heavy, the roundabout is congested a great deal of the day and the new traffic lights may make the flow more equal but it cannot reduce the amount of traffic so if this goes ahead the queues will only become longer. Instead of fresh air there will be more carbon dioxide and particulates in the atmosphere so instead of a health giving green space we will be subjected to more pollutants causing as has been proved a real health hazard.

Yours faithfully
Mrs Ruth Wolff
