Dear Sirs,

I would like to register my strong opposition to the proposed building around Horsforth Park Lane Campus and the field bordering Victoria Mount.

The current housing on the Victorias is already quite dense; and is largely occupied by young families.

These children need the green space currently available to them. The proposed level of housing seems disproportionate to the area, and obviously to the school and medical provision.

I am unclear as to why this site has been chosen over, for example, West End Lane, which seems far less over-stretched and has land for sale for private development?

Yours sincerely,

Margaret Dawson

(Horsforth resident, Broadgate Lane)
