I am opposed to the following proposed housing sites in Bramhope
HG2-15
HG2-16
HG2-17

My main reasons are the size of these developments which change the character of the village and the dramatic affects on local traffic which is already congested in peak hours. Also the loss of green fields which Bramhope is known for and a reason people choose to live here.

I am Also against site references 1181A, 1181B, 1204, 3434 and 3367B. These site should remain greenbelt and road accessibility is poor. Living here I know if the Leeds road is congested breary lane Bramhope and church lane become completely gridlocked and I fear this will become an every day occurrence if all the developments in this email are successful.

Kind regards

Nicola Kerr
