Subject: PDE00502_objection to Horsforth sites
Date: 09 November 2015 18:33:57

I object to the green field sites around the Horsforth area being used for house building . The traffic and infrastructure around the Horsforth ring road and surrounding link roads cannot cope .The schools and G.P surgeries cannot cope with anymore pressure on their services. Already we have had a summer of road works and traffic disruption due to the amount of houses built on the old Sandoz site . I feel there are many brown field sites and existing houses that could be renovated to provide affordable housing, the houses that have been completed in Horsforth in the last year are executive style homes that do not meet the requirements of the first time buyers and low cost housing that is required.

Yours sincerely
June Kelsey 35 Fairburn House LS184TT
