Date: 09 November 2015 14:04:56

I would like to object to the above application on the following grounds

The Land is Green belt and should be protected, and also the conservation areas are nearby.

There will be impact on the village of Bramhope with a significant increase in size of the village.

The access and highways will have issues on an already very busy roads. with extra cars in the village

This development will have adverse effects on the existing local services, and especially the schools which are overcrowded.

The type of development will not help the governments figures of building affordable homes.

No one in the village wants this development as it s totally out of place, and this will change the rural character of the village

I would also comment on the Leeds Site Allocation Plan

All brownfield sites in Leeds need to be exhausted before any consideration is given to greenfield sites

Consideration needs to be given to infrastructure need before any site is approved e.g. school capacity primary and secondary,

Determination of future highways demand and how this will be met,

Ability of local primary health structure to meet anticipated needs of local population.

The sites that are proposed to be taken out of the green belt do not meet the Exceptional circumstances or Special Circumstances that need to be in place before this can happen.

Best Wishes

Tim Ridsdale
