Good afternoon

I write with some concern regarding the proposed development of the greenbelt area in Rawdon. This area of Leeds is already far too busy with congested roads and housing. The proposed development of new houses on green field land will flood and spoil the area and it will become over crowded. Property prices will drop and it will become like most areas of Leeds - unpopular and over crowded. The infrastructure is not capable of withstanding more development and also goes against the Leeds Core Strategy.

I beg you to reconsider and oppose this proposal.

Regards, Barbara Naylor
