---

Dear sir/ madam

Red HG2-50)

I am writing to express my concerns and appose the plans for a new development in the church lane paddock in meanwood.

In recent years meanwood has experienced fantastic growth and development and has become a much wanted place to live. However such growth has had terrible affects on traffic increase, parking issues, strain on services such as getting an appointment at the doctors/ dentists and church lane has become a busy rat run , with speeding drivers trying to avoid bottle necks in stonegate road. 25 new dwells will only add to increased strain on the community of meanwood without even looking at the environmental impact.

We as a community do not want houses in this paddock and cause increased traffic and strains on services. Also this may have an impact on the church which is a listed grade 2 building . We do not want more green space being eaten up by building .

Yours sincerely

Mrs Nicola walker  
Parkside view resident
