**Importance:** High

---

**I am enormously concerned about your ill thought out, and badly conceived plan to build on sites HG2-12 ; HG3-2 HG3-4;HG2-41;HG2-43**

**This proposal is not consistent with national policy, nor is it fit for purpose.**

**the use of Greenfield sites before brownfield sites is unjustified and possibly against the law of the land , a formal complaint has been forwarded to the Dept. of the Environment.**

**Leeds Strategic Green infrastructure prohibits the use of Green Belt for building!**

**These areas are most important to me and all of my family, who use them daily for exercise.**

**The areas adjoining the A65 will suffer greatly for additional traffic congestion, pollution from vehicles, which is already at an all time high!**

**This irregular plan is definitely "NOT FIT FOR PURPOSE" and must be abandoned immediately.**
