---

Dear Sir

We wish to strongly object to the proposed building of houses on Coach Rd fields Guiseley HG 2-6. We have lived in the area for 40 yrs and have enjoyed walking along the Coach Rd for many years with children and grandchildren. It is an area of natural interest which would be completely decimated if houses were to be built on the fields.

However, the most important objection we have is the consequences to the infrastructure of Guiseley - we have roads which are often gridlocked as a result of additional retail and housing allowed to be developed by LCC. How on earth planners cannot understand the chaos which would be caused by developing the fields is beyond belief. Access to the fields would be problematic, to say the least, with the potential for chaos in the area

Of course affordable housing is necessary but we feel Guiseley has had more than it's fair share of allocation. We understand there are also plans to build a school on the fields - we have already extended two schools in Guiseley - enough is enough in a small town which has completely changed it's character over the last 20 yrs - such a shame.

Along with many, many other residents we hope LCC will come to appreciate the depth of feeling against the proposals and reconsider the plans.

Yours faithfully

Hilary and Peter Murden
