James Stanley 17 Southlands avenue Rawdon Leeds. I am writing to object to your stupid plans to build houses on site hg2-12. The area already floods when it rains with drains overflowing down Knott lane. There are very old trees that will be lost forever ,red squirrels and hedgehogs will be lost with the destruction of the environment. You say that building houses next to a conservation area will enhance it ,do me a favour stop lying you have shown over the years with your plans for road building that the council are not fit for service. Horsforth roundabout is a mess as it was when you painted a white line on it. The roads cannot take anymore traffic. You are also leaving the council open to lengthy and expensive legal action as the plans are not legal. People down our street will not allow traffic to use our road ,we will use any and all methods to make the council who work for us LISTEN
