Dear Sir/Madam,

I have received a leaflet to say that Holy Trinity Glebe Field (Church Lane Paddock) has been allocated for residential development. Whilst I would be very sad to see the green area gone, I understand the need for housing space. I would urge planners and the council to consider the impact of extra vehicle pressures from the new housing estate on the junction between Green Lane and Meanwood Road. This junction is already congested and highly treacherous with accidents occurring on a regular basis. An increase in traffic from the new housing as residents travel to work etc would need to be considered and accounted for with changes to the junction if needed.

Yours faithfully,

Ms Zoe Gilbert
