I would like to raise my concerns regarding the planning permission request for the residential development proposed for church lane paddock (holy trinity glebe field) Is6.

I live locally and worry already about traffic congestion in and around church lane, surely more houses here is going to cause more problems.

I also worry about flooding as I know the houses at the bottom of meanwood flood so surely by having more houses on this boggy site will only add to the problems for these houses lower Down?

Also surely the site would be better suited to something to help the community like a new primary school, especially considering all local schools such as meanwood c of e are so oversubscribed that it would be a perfect use of space rather than more houses?

Thank you for your time

Kinds regards

Gemma Hodge
