Subject: PDE00916_Objection to residential development on Holy Trinity Glebe Field
Date: 16 November 2015 11:54:12

Dear Sir/ Madam,

I was concerned to see plans for this development.

Firstly, I worry about the volume of traffic this would bring to an already heavily congested area . This would increase the danger to drivers and residents particularly vulnerable people such as children and older people.

Secondly, this is a lovely area that my family and I enjoy walking past, as do many local residents. It is enjoyable in such an already built up area of Meanwood.

Thirdly, there is a lot of wildlife living there. This would be a great loss too.

Fourthly, there would be additional strain on currently very oversubscribed primary schools and other local services such as the Health Centre.

Lastly, it would lead to the loss of value of properties nearby who have residents who have lived a long time enjoying the non built up views.

I hope these objections save the "Church Paddock" as these sentiments and concerns are echoed by many local people.

Thank you,

Mrs Bowdin.
