Dear Sir/Madam,

Site HG2-48(3457) Weetwood Manor

We write as Weetwood residents to oppose the proposal to construct dwellings on the above site.

Although the projected development is for a small number of dwellings only, the executive nature of these dwellings with their attendant double garages implies an increase in vehicular traffic in and out of the development well into double figures. The current difficulties which local residents are experiencing with excessive street parking on Weetwood Lane, together with frequent flouting of the existing speed limits, will be exacerbated by any vehicular increase in the area and the present 'accident-waiting-to-happen' cloud under which we are all living will be enlarged.

The proposed plot is not presently suitable for construction of dwellings. To destroy the present copse and level surrounding land to make it fit for that purpose would be to endanger the continued existence of the flora and fauna - some of which are exclusive to that area of Leeds - currently thriving there.

We request that this proposal be removed from the Site Allocations Plan.

Yours sincerely,

John Thorne

Jan Thorne
