Date: 16 November 2015 11:04:35

I wish to object the current planned development on all greenbelt site in Leeds site allocation plan, including HG2-41, HG2-43, HG2-12, HG3-2, HG3-3 and HG3-4

These sites are strategic green infrastructure, making them even more important than the ordinary greenbelt.

By building here it would defy the National policy, the NPPF and Core Strategy.

I believe that you will take into consideration the points
Several suitable brownfield sites have not been included
