---

Dear Leeds City Council

I wish to input & object to the proposed HG3-4.

My name is Philip Dibb, my address is 19 Henley Close, Rawdon, Leeds, LS19 6QB.

I object to the plans as they fail the 'justified' test of soundness.

All around the area of Rawdon we have great areas of greenbelt which must be preserved for our future generations. There are other brown field areas in the Leeds area which have space.

In addition, the roads / infrastructure of the surrounding areas cannot cope now – so additional houses and population will not help.

On a regular basis I queue in traffic approaching the Horsforth main roundabout ... sometimes 200 to 400 metres of queuing traffic. This is following the 'improvements'.

Please record my input as a formal objection to the proposal HG3-4.

Thanks, Phil Dibb
