I object to the building on rawdon and Horsforth area of greenbelt. I was brought up in this area and it's a pretty special place because it's near the city but yet in the countryside, I like going on walks with my girlfriend and her dog. I don't know much about this but would I do know it what your doing is wrong and illegal, I'm particularly worried about and against the housing plans on the sites HG2-12, HG3-4, HG3-3 and the massive site HG3-41 where I used to love picking strawberries when I was little, surely there must be more suitable sites to build, I know we need house but do we really need them here?
