Subject: PDE01181_Rawdon proposed build.
Date: 15 November 2015 20:31:16

To LDF publication draft consultation ,

I am emailing you in relation to my serious concerns about the following sites:

Hg2-12
Hg3-2
Hg2-41
Hg2 -43

These particular sites are green belt and any proposal to build houses does not follow national guidelines and is un justified and goes against the Leeds core strategy.

Having lived in Rawdon for many years, the area is important to my family in preserving this green belt. Already there is vast increase in traffic which is impacting our commute as well as increased pollution on the road.

An increase in houses on these proposed sites will destroy this great suburb of Leeds.

As a Rawdon resident I hope you take my comments on board and if further assistance is needed please do not hesitate to contact me,

Kind Regards

Dr Ritesh Lad (Bds)
