Dear Sir / Madam,

I would like to write to object to the proposed development of the above sites.

The sheer scale of the development cannot be justified. I believe it will have the following adverse impact;

1. The special landscape will be lost forever having a visual impact on the surrounding area.
2. Rawdon Cragg Wood Conservation area would be lost
3. A vital area of greenbelt would be lost.
4. A65 is full and over capacity . There is only one point of access for sites into HG2-12, HG3-2 and HG3-3 from Knott Lane.

Finally I see no comprehensive greenbelt survey in the councils paperwork.

Yours faithfully,

Alec and Hannah Kendrick
