Subject: PDE01211_Objections to Leeds Site Allocation Plan
Date: 15 November 2015 19:42:00

Below are my objections to the Site Allocation Plan as it relates to Horsforth:

1. There is a lack of infrastructure in Horsforth, the roads are congested and there are far too few school places for the existing residents.
2. Low-cost housing is not guaranteed under the plans.
3. There is no legal justification for the use of green belt land. The number of houses proposed constitutes a disproportionate burden of new housing in this part of Leeds without any guarantees for the associated necessary and yet lacking facilities and infrastructure.
4. There are alternative brown field sites that could have been chosen instead of green field areas.
5. The council has not informed residents properly about the consultation events. Local groups have informed residents but the council has been lacking in this regard.

Yours

Mrs Catherine Nielsen
