Date: 15 November 2015 18:41:19

I want to object to the proposed planning sites above. Without any proper planned additional infrastructure it is ludicrous to think that these communities can withstand this kind of population increase. The already over congested A65 cannot and will not with stand any extra transport in any shape or form. The Primary and Secondary schools in these localities are over subscribed too, that's without mentioning or counting the added pressures on community health care resources!

I have lived in the district for over 20 years, brought up my family here and enjoyed many a family day out over the years and plan to carry on doing so. The beautiful, landscape, views, of our natural environment is not to be taken for granted, I cherish it and I want to pass my love for these areas, down to my grandchildren and them to theirs. We have a human right to enjoy our free time how we wish and if these areas, you are putting forward for housing, are used, it will destroy this!

Please, please, think again!

Mr. Darren Davies
