15<sup>TH</sup> NOVEMBER 2015.

Dear Sir/Madam

I wish to formally object to the following proposed developments as part of the LEEDS SAP:

HG2 – 37 BROWNBERRIE LANE  
HG2 – 65 WESTBROOK LANE  
HG2 – 66 WESTBROOK LANE  
HG2 – 41 LAND NORTH OF CALVERLEY LANE TO A65

It is my understanding these sites are not consistent with the national policy specifically regarding Green Belt, Green Space and Conservation Areas. With such an overall huge increase in houses, there are bound to be heavy volumes of traffic and lack of solutions to the problems that brings. More people means more requirements for infrastructure for schools, transport, medical facilities, electricity, gas, water and drainage. The effect on people's health and wellbeing suffering from the effects of additional carbon monoxide and lack of open spaces for people to enjoy. The developers always look for large returns on their capital investment so 'affordable housing' will be very small – and housing for older people requiring bungalows or sheltered housing never seems to be considered. These should be looked at sympathetically in small developments preferably on brown sites within the area for local amenities.

Yours faithfully,
