Subject: PDE01286_Re: Leeds SAP - Formal Objection
Date: 15 November 2015 17:38:11

15th November 2015

Dear Sir/Madam

I wish to formally object to the following proposed development as part of the Leeds SAP:
HG2 – 41 Land North of Calverley Lane to A65

It is my understanding this site is NOT consistent with the national policy specifically with regard to Green Belt. The fields and open spaces are of significant value to the residents of Horsforth. Horsforth was once described as the largest village in England surrounded by water – in other words to get out of Horsforth you had to cross water whether river, canal, stream or beck. The history of the area is important and the boundary of green belt is paramount in keeping with our identity. The infrastructure of the proposed development must be considered in relation to the increase of traffic, additional education facilities, medical facilities, sewage and water facilities. Brown field sites should be explored as potential developments on a much smaller scale before considering adopting Green Belt.

Yours faithfully,

Caroline A Bentley
6 North Road
Horsforth
