I would like to object to the planned housing on all the above sites. There are not enough roads to carry all the cars now and if more people come to live in these places then that is even more cars blocking our roads and the busy car parks. Also my friends and I like to walk and hang out in some of the places on a weekend we enjoy the views and fresh air, the wildlife such as goldfinches, squirrels, and watching it change over the seasons. I will be so sad if I can't have that any more. Please look at different places first my mum says there are other places which can be built on. My school is already full and doesn't have any room for any more children to come here, will there be any new ones built because my mum says she doesn't think that there will.

I hope you build on brown field places not our green belt.
