Subject: PDE01336_Objection to building on greenbelt in Leeds/ hg2-10,hg2-12, hg2-4 hg2-4, hg2-10, hg2-1, hg2-41
Date: 15 November 2015 16:44:44

I am emailing to strongly object to the proposed building on the above green belt sites. The sites not only form part of a close knit community but provide communal leisure space for the general public and their families. Dog walking, ramblers enjoying wildlife, birdwatching and nature. Me and my family walk our dog Ziggy daily around these areas as do many of my family and friends. If we are to preserve these beautiful natural sites for future generations then surely the council should firstly look at the brownfield sites which are available around Leeds? I can't help thinking, that, as in most cases gone before, it is more an issue of greed, on the developers part, and that these very favourable locations would raise them a far greater sum of money, than less rural locations would.

Another concern I have is the continued lack of infrastructure where houses are springing up!

All the major and most of the minor roads in and out and around the Leeds area to and from Rawdon, Horsforth, Guiseley, Yeadon etc are already over congested so extra traffic would cause greater concern. There are no extra amenities, schools, doctors, leisure facilities.

I am not against progress but I also have great concerns about the type of home owner the developers are building houses for.

First time buyers? Affordable houses for young people to get on to the ladder?

Or Detached, 4 bedroom, 2 garages, for professional commuters, with pot loads of money?

Waiting in anticipation of the right council decision for the right reasons

Mrs. GERALYNN DAVIES
