Hi there. My name is Richard Darfield of 10 Bransdale Gardens Guiseley LS20 8QE

I object to the intention to build on green belt in these areas

No consideration has been given to the traffic on the A65 which is already gridlocked along with the area around Morrisons. Access via Silverdale Avenue is already difficult but to add a school & houses would make it impossible.

I use the train each day to get into Leeds which is already full. This will be worse once the addition stops open without addition pressure coming from more housing. We have already been told that the platforms are not long enough at Guiseley to provide addition carriages.

many thanks

Richard Darfield
