Subject: PDE01414_HG2-50 Church Lane - Paddock, Meanwood LS6
Date: 15 November 2015 14:47:16

Site address:

Please note my objection to the above site plan allocation in support of the resident of Meanwood and my colleagues.

I do not agree with the proposed use of this site

Local services/facilities: Local concerns have been expressed regarding existing drainage problems on the site with the field often being waterlogged.

Schools: There is currently a shortage of school places in the area. Issues with traffic, last bit of historic history and green space and character of the area.

This site would only provide a small number of houses.

The church provides a historic reminder of the character of the area and this is the only green space in Meanwood and a reminder of the character of the area.

I appreciate that sites need to be found for housing, but feel this site has such importance locally that allocating for housing would be contrary to the spirit of Leeds Core Plan Policy

It is a very small area and would offer small number of houses. I would like to support the community for the large scheme at the working men's club in its place.

The site should be removed from housing allocation in this plan.
