I strongly oppose to the Leeds city council s plans (HGX-XX)to build houses on the green belt area HG2-12 woodlands drive HG2-41 rawdon crematorium horsforth roundabout HG3-2 knott lane west HG3-knott lane east

These plans will spoil the last remaining green belt land in this district ,the views and wildlife in the area will be destroyed and in its place will be more car traffic pollution ,over populated areas ,disruption to residents and local businesses it will effect people's health.

This area is ideal for people who suffer with asthma and other illnesses to get out in the fresh air and go walking ,jogging cycling and not be debilitated by breathing in pollution as I am a asthma sufferer myself and a jogger, who jogs daily in these areas i will be affected by your plans and so will my health .

Regards
