Leeds City Council,
We would like to object to your proposal to use green belt land to build housing in the Horsforth area.

The proposed sites are;
HG2-41
HG2-43
HG2-12
HG3-2 and
HG3-3

There are plenty of brown field sites that could be developed. We need to keep the green belt areas for future generations to enjoy.
Development of these areas is about housing developers maximizing their profits on build costs due to the high value that these homes can command in this area.
Horsforth does not have the infrastructure to accommodate these developments.

Regards

Dave and Sara Resendez
